## Foreign Travel

The Guaranty Trust Company issues travellers' letters of credit and travellers' cheques available in all parts of the world. A special telegraphic code for the use of travellers is provided. The London Office, conveniently situated near the Bank of England, receives and forwards travellers' mail and is thoroughly equipped to transact any business of the Company.

The Guaranty Trust Company's enormous business in foreign exchange and commercial credits—nearly one thousand million dollars in 1906—has made its name thoroughly familiar in Great Britain and on the Continent and should recommend its letters of credit to intending travellers. The Guaranty Trust Company desires to increase the volume of its travellers' credits and invites correspondence upon the subject. Write for special booklet "S."

THE SUN. MONDAY: APRIL 15, 1907. ALMOST A STEEL FAMINE. Nothing Available for Early Delivery

-Orders of All Sorts Pour In.

PITTSBURG, April 13.-Active buying of bessemer pig iron for second half delivery began this week when the Youngstown Sheet and Tube Company and another large independent steel interest entered the market and placed orders for large tonnages. All

and placed orders for large tonnages. All
the second half iron was at the uniform price
of \$21 f. o. b. valley furnaces, except \$6,600
tons sold by W. P. Snyder & Co. to the Cambria
Steel Company on the ascertained monthly
average. The Bessemer Pig Iron Association sold 120,000 tons to the Youngstown
interest and the Cherry Valley Iron Company
sold 12,000 tons to the same concern for last
half delivery, making the total sales recorded
192,000 tons.

The sales of foundry, gray forge and other
grades of pig iron were light, as there is but
little available for shipment this side of July 1.
No. 2 foundry in small lots this week brought
\$25.50 valley furnaces, and gray forge advanced to \$21. Buying of basic iron for
second half has been light. The total sales
of pig iron since April 1 exceed 200,000 tons.

While less than one-half of the bessemer
pig iron production for the second half is
under contract, furnaces have determined,
it is understood, to maintain a minimum
price of \$21. This is a concession of 50 cents
a ton.

An unusual event in the steel market this An unusual event in the steel market this

week was the presence in the city of a number of representatives of consuming interests who came here to urge shipments on conof representatives of consuming interests who came here to urge shipments on contracts. Every large producer was visited and listened to pleas for early delivery. All the milts are months behind in deliveries, and although the plants are being operated to capacity it seems impossible to catch up. Considerable new business in different lines was placed, but in no instance was delivery guaranteed before the third quarter. One consumer of steel bars wanted 2,000 tons for early delivery, but could not be accommodated at any price. He reduced the amount to a thousand tons, but with no better success, and came down to a few carloads, but could not place his order. Before giving up he asked if he could not get one carload, and even this small lot was denied him.

One of the largest producers of steel bars has sold the capacity of all of its plants for the next eight months and on iron bars is sold up for four months. The plate mills are equally crowded with orders, although some of the small concerns are in a position to make deliveries in a month, but are asking premiums of from \$1 to \$2 a ton.

The American Sheet and Tin Plate Cou-

of the small concerns are in a position to make deliveries in a month, but are asking premiums of from \$1 to \$2 a ton.

The American Sheet and Tin Plate Company cannot promise deliveries on sheets inside of five or six months and independent producers are not in a position to guarantee deliveries in less than four months.

The National Tube Company and all of the leading pipe interests are behind in deliveries. There is no decline in the demand for structural material and in addition to the new business placed several important inquiries have been received. The American Bridge Company will furnish 15,000 tons for the Susquehama bridge to be built by the Baltimore and Ohio Railroad and 1,500 tons for the bridge over T street, Washington. About 10,000 tons of steel will be required for the bridge over the Ohio River from Ambridge to the new plant being erected by the Jones & Laughlin Steel Company at Aliquippa. A county bridge may be built across the Allegheny river at Oakmont which will take about 1,500 tons of steel. The Carnegie Steel Company continues to add to its steel rail tonnage, contracts taken this week amounting to about 15,000 tons. So far this company has booked close to 900,000 tons of standard sections and light rails for delivery this year.

The scarcity of steel is unprecedented. It is

booked close to 900,000 tons of standard sections and light rails for delivery this year. The scarcity of steel is unprecedented. It is impossible to get open hearth billets at any price, and one lot of 1,000 tons of bessemer billets is reported at \$30.50. Eastern mills have some billets to spare, and during the week offered bessemer billets at a price equal to \$31.50 delivered Pittsburg. No sales at that high figure have been made so far.
